Policy
Reforms

**People safely using
internet technology**

Measuring how many
people we have kept
safer in some way
through our efforts.

The Me2BA Digital Harms Dictionary

Why is Harmonization of Digital Harms Crucial?

- No agreement on what constitutes “harm” when using technology.
 - Legal
 - Regulatory
- The spectrum of harms is large
 - “Programmatic Harms” – harms incurred by ordinary & expected use of technology
 - Using technology for harmful purposes
- Little progress on quantifying damages from harms
- “Digital Rights” thinking disconnected from “harms”

Me2BA Digital Harms Dictionary

- The Digital Harms Dictionary was the very first deliverable of the Me2B Alliance.
- First version: 2019–2020
- Second version (2021) added references to US Regulations
- <Open Excel version of DHD and share structure>

What's Next?

- Exploring funding for Digital Harms Wiki as a public resource
 - Would this wiki be useful?
 - Who wants this? Why?
 - Who would contribute? Why?

THANK YOU!
